As the candidate of EC, I would like to stand for the higher quality theatre for young audience around the world which should be accessible to every child. I believe in the power of actor standing in front of the young audience and whatever story he has to tell, there are always humanity and joy in a first place for the whole family to experience.

Toomas Tross has the pleasure to be the first candidate of EC from Estonia and Baltic countries generally. He can express himself in English, Finnish, Russian and Estonian.
