### Letter of intent

Region Skåne wishes to express our hope that ASSITEJ Artist Gathering 2022 will be hosted by the commission of ASSITEJ in Sweden and Bibu in Helsingborg 2022 and has therefore granted the project financial support.

Performing arts is a vital part of the cultural life in Skåne. The cultural committee has defined performing arts, especially for children and youth, as a topic of high priority.

ASSITEJ Artistic Gathering is an excellent opportunity to make children's theatre and other disciplines of performing arts known to a bigger group of audience, whether national or international, and also to infuse an awareness of its importance and benefit to society. Performing arts in Skåne is well respected in its progressive character, and contributes to further development of the performing arts also on a national level. Furthermore, it is useful for the development of the professionals to exchange experiences and knowledge.

We are looking forward to increasing the cooperation in the field of performing arts between all the participants.

We hope that ASSITEJ Artistic Gathering will be held in Helsingborg 2022.

Yours sincerely

Gitte Wille  
Director of cultural affairs
